Response to Amendment

The Examiner respectfully submits a response to the amendment received on 4/12/2005 of application no. 09/825,022 filed on 4/3/2001 in which claims 1, 3-9, 11-13, and 15-16 are currently pending. **This application is allowed.**

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sungho Hong on 4/12/2005.

The application has been amended as follows: the preamble of claim 13 should read "A computer readable program stored in memory medium for an operating processing program for an image pickup apparatus, comprising operation processing steps of:",

Allowable Subject Matter

Claims 1, 3-9, 11-13, and 15-16 are allowed.

Regarding claim 1, the reason for allowance is as follows: the prior art does not disclose or fairly suggest an image pickup apparatus wherein when the photographing time of a given chapter is prolonged, said control means corrects the photography times

Art Unit: 2615

set by said setting means for the chapters to be photographed after the given chapter, thereby controlling the photography operation, in combination with all other claim limitations.

Regarding claim 9, the reason for allowance is as follows: the prior art does not disclose or fairly suggest an image pickup method wherein when the photography time of a given chapter is prolonged, the photography times preset for the chapters to be photographed up after the given chapter are corrected to control the photography operation, in combination with all other claim limitations.

Regarding claim 13, the reason for allowance is as follows: the prior art does not disclose or fairly suggest a computer readable program stored in memory medium for an operating processing program for an image pickup apparatus wherein when the photography time of a given chapter is prolonged, the photography times preset for the chapters to be photographed after the given chapter are corrected to control the photography operation.

Regarding claims 3-8, 11-12, and 15-16, the reason for allowance is as follows: the claims depend from an allowable independent claim.
